KRISHNA PARIYAR

Chitwan, Nepal | +977 9841506481 | kp.bhusa2021@gmail.com

SUMMARY

Innovative Junior Software Developer with comprehensive experience in software development and coding. Skilled in designing and implementing robust, scalable applications using modern programming languages and frameworks. Strong problem solver with knack for debugging and optimising code to enhance performance. Brings collaborative approach to team projects, ensuring seamless integration and delivery of high-quality software solutions.

EXPERIENCE

Apr 2023 to Current

Junior Software Developer
Brainpool Solutions – London, UK (Remote job)

- I work on RESTful APIs, session management, data centralization, UI development, bug fixes, payroll maintenance, custom features, and report generation (**Crystal Reports, PdfSharp**). My tech stack includes **ASP.NET Core, C#.NET, AngularJS, ReactJS, EF Core, MS SQL, LINQ, AJAX, jQuery, and database schema design**.

Aug 2021 to Mar 2023

Software Developer (Internship)
Heartsun Technology – Chitwan, Nepal {Onsite job}

- The organization provides a comprehensive Hospital Management System that optimizes operations by managing staff, reports, inventory, accounting, and insurance. Key technologies include **ASP.NET Core (MVC), .NET, TypeScript, SQL, IIS, Entity Framework Core,** and **GitHub**. Additional expertise includes design patterns **(MVC, Singleton), JavaScript, HTML, CSS, Bootstrap**, and project management with strong communication skills.
